

Environmental Policy

Policy Statement and Scope

Sensory Creative Lab CIC is committed to complying with all relevant environmental legislation, operating sustainably, reducing our environmental footprint, and inspiring responsible practices. This policy applies to all practitioners, directors and volunteers across our daily operations, projects, and events.

Key Commitments

We strive to continuously improve our environmental performance by focusing on:

- **Waste & Recycling:** Embracing "Reduce, Reuse, Recycle," minimising single-use plastics, defaulting to paperless working where possible, and ensuring the safe, eco-friendly disposal of creative materials and craft supplies.
- **Energy & Water:** Actively conserving resources and ensuring lighting and electronic equipment are switched off when not in use.
- **Sustainable Procurement:** Prioritising local, ethically sourced, and environmentally friendly materials to reduce transport emissions and support the local economy.
- **Travel:** Encouraging walking, cycling, public transport, and car-sharing for journeys to our working venues and events.

Culture and Monitoring

We factor environmental impact into all project planning to ensure our goals do not compromise the environment. This policy will be made available to all practitioners, volunteers, and partners. The Board of Directors holds ultimate responsibility for monitoring these practices and will review this policy annually to ensure ongoing sustainable improvement.
